European Journal of Operational Research 55 (1991) 431–447
North-Holland

Keyword Index

Volumes 50–55 (1991)

Absorbing Markov chain
Sagan, H. and Bishir, J.W., Optimal allocation of storage space 55 (1991) 82

Achievement test construction
Adema, J.J., Boekkooi-Timminga, E. and Linden, W.J.v.d., Achievement test construction using 0–1 linear programming 55 (1991) 103

Actuarial science
Haehling von Lanzenauer, C. and Wright, D.D., Operational research and insurance 55 (1991) 1

Actuarial science
Haehling von Lanzenauer, C. and Wright, D.D., Operational research and insurance 52 (1991) 129

Additional resources
Blazewicz, J., Dror, M. and Weglarz, J., Mathematical programming formulations for machine scheduling: A survey 51 (1991) 283

Agriculture & food
de Mol, R.M. andvan Beek, P., An OR contribution to the solution of the environmental problems in the Netherlands caused by manure 52 (1991) 16

Agriculture
Sapountzis, C., Water needs for irrigation based on soil water negative pressure – A renewal theory application on potatoes 54 (1991) 115

Algorithm
Mazzoni, G., Pallottino, S. and Scutellà, M.G., The maximum flow problem: A max-preflow approach 53 (1991) 257

Algorithms
Heragu, S.S. and Kusiak, A., Efficient models for the facility layout problem 53 (1991) 1

Algorithm
Zahir, M.S., Incorporating the uncertainty of decision judgements in the analytic hierarchy process 53 (1991) 206

Allocation
Hakimi, S.L. and Kuo, C.-C., On a general network location–production–allocation problem 55 (1991) 31

Alternative *N*-unique
Chien, I.S. and Yu, P.L., Transformation and restructuring of linear multiobjective programs: A fundamental method to resolve complex problems (1991) 199

Analytic hierarchy process
Kress, M., Approximate articulation of preference and priority derivation – a comment 52 (1991) 382

Analytic hierarchy process
Zahir, M.S., Incorporating the uncertainty of decision judgements in the analytic hierarchy process 53 (1991) 206

Approximate algorithm
Vassilev, V. and Genova, K., An algorithm of internal feasible directions for linear integer programming 52 (1991) 203

Approximations
Frenk, J.B.G., Thurik, A.R. and Bout, C.A., Labour costs and queueing theory in retailing 55 (1991) 260

Approximations
Liu, Y.C. and Perros, H.G., Approximate analysis of a closed fork/join model 53 (1991) 382

Arbitrage valuation
Ritchken, P. and Kamrad, B., A binomial contingent claims model for valuing risky ventures 53 (1991) 106

Arc partitioning
Bodin, L. and Levy, L., The arc partitioning problem 53 (1991) 393

Artificial intelligence
Angehrn, A.A., Modeling by Example: A link between users, models and methods in DSS 55 (1991) 296

Artificial Intelligence
Dargam, F.C.C., Passos, E.P.L. and Rocha Pantoja, F.D., Decision Support Systems for military applications 55 (1991) 403

Auditing
Dodin, B. and Chan, K.H., Application of production scheduling methods to external and internal audit scheduling 52 (1991) 267

Backlog inventory model
Proth, J.-M. and Xie, X.-L., A demand-to-manufacturing-requirement model based on predefined configurations 53 (1991) 297

Balance
Bodin, L. and Levy, L., The arc partitioning problem 53 (1991) 393

Balking in queues
Haviv, M., Stable strategies for processor sharing systems 52 (1991) 103

Bicriterion programming
Belkeziz, K. and Pirlot, M., Proper efficiency in nonconvex vector-maximization-problems 54 (1991) 74

Blending
Moreira, N.A. and Oliveira, R.C., A Decision Support System for production planning in an industrial unit 55 (1991) 319

Block graph
Hwang, S.-F. and Chang, G.J., The *k*-neighbor domination problem 52 (1991) 373

Branch and bound
Brah, S.A. and Hunsucker, J.L., Branch and bound algorithm for the flow shop with multiple processors 51 (1991) 88

Branch-and-bound
Lin, E.Y.H. and Bricker, D.L., On the calculation of true and pseudo penalties in multiple choice integer programming 55 (1991) 228

Business management
Kwak, N.K., Schniederjans, M.J. and Warkentin, K.S., An application of linear goal programming to the marketing distribution decision 52 (1991) 334

Cash management
Penttinen, M.J., Myopic and stationary solutions for stochastic cash balance problems 52 (1991) 155

Each keyword is followed by volume number and first page of the paper it refers to.
